

SAN ANTONIO TGA RYAN WHITE PART A
LOCAL PHARMACY ASSISTANCE PROGRAM DRUG FORMULARY

Introduction:

The San Antonio TGA Local Pharmacy Assistance Program (LPAP) provides HIV/AIDS and HIV-related pharmaceutical services to clients who are not eligible for medications through private insurance, Medicaid/Medicare, State ADAP, State SPAP or other sources. As with other RW funded programs, the LPAP program is the payer of last resort. Clients who are eligible for the LPAP services must have incomes at or below 300% of the Federal Poverty Level. In accordance with the Health Resources and Services Administration (HRSA) recommendations for a local advisory body for LPAP programs, the Quality Management Committee of the Ryan White Program will be the local advisory board for the development and implementation of the formulary for the San Antonio TGA LPAPs.

HRSA guidelines require that the LPAP formulary be consistent with the most current U.S. Public Health Services (US PHS) guidelines for the treatment of HIV/AIDS and co-morbidities. Several resources were utilized in the development of the formulary; including formularies from other Ryan White Part A funded LPAP programs throughout the state, US PHS guidelines for antiretroviral therapy, and guidelines for the prevention and treatment of opportunistic infections (see reference section). The drug d-codes were derived from the Multum Lexicon Database (Multum Lexicon Database Inc., 2007).

The formulary can be found at HIV210.org and has been emailed to all providers. It is imperative that service providers follow this formulary to ensure uniformity of services throughout the service system.

Waiver Process for Medications Not Listed on the Formulary:

All drug codes for various drug formulations, routes of administration, (ie oral, topical, intranasal, transdermal, inhaler, pens, venous, etc.), strengths for each listed medication, and monthly supplies of medical equipment used in monitoring (ie glucose lancets/strips/monitor) are allowable, provided they do not fall under the non-allowable medication description below. Other FDA-approved prescription medications necessary for the treatment of HIV-related conditions that are not listed on the formulary may be requested on a case by case basis with prior approval from the Administrative Agent for the Bexar County Ryan White Program.

The Drug Formulary Subcommittee of the Ryan White Clinical Quality Management Committee has developed the attached form for providers to fill out to request a waiver for medications that are not on the formulary. To be eligible for a waiver two criteria must be met: 1) the condition treated must be HIV-related; and 2) it is not feasible to treat the condition adequately with medications available on the formulary. The waiver must be signed by a staff member and emailed to the email address listed on the form. The waiver must be approved by the Ryan White Director and/or Assistant Director before the medication can be reimbursed. The provider will be notified within (2) business days of approval or denial of the waiver.

The following are not allowable:

- Medications that are dispensed or administered during the course of a regular medical visit or that are considered part of the services provided during that visit
- Non insulin Syringes, test kits or other similar items
- Medications that are available without cost from other sources (e.g. TB Treatment provided by Health Department)
- Erectile Dysfunction (ED) Medications

Concerning Over the Counter (OTC) Medications:

“Over-the-Counter medications to include vitamins may be purchased with LPAP funds if the medication is listed on the LPAP formulary and the provider has deemed that the medication is needed for prevention and treatment of opportunistic infections or to prevent the serious deterioration of health.” (Source:

http://www.hiv210.org/images/pc_documents/SoC/2018-01-25_SoC_Approved.pdf)

A waiver will be required prior to requesting reimbursement of OTC costs.

LOCAL PHARMACY ASSISTANCE PROGRAM DRUG FORMULARY

Generic Name	Brand Name
ANTIRETROVIRAL AGENTS: NUCLEOSIDE/NUCLEOTIDE REVERSE TRANSCRIPTASE INHIBITORS (NRTIS)	
Abacavir Sulphate (ABC)	Ziagen
Abacavir Sulphate/ Lamivudine (ABC/3TC)	Epzicom EPZ
Abacavir Sulphate/Lamivudine/ Zidovudine, (ABC/3TC/AZT)	Trizivir TRZ
Didanosine, ddl EC	Videx EC
Emtricitabine, (FTC)	Emtriva
Emtricitabine/Tenofovir (FTC/TDF)	Truvada (TVD)
Lamivudine (3TC)	Epivir
Lamivudine/Zidovudine (AZT/3TC,	Combivir (CBV)
Stavudine, d4T	Zerit
Tenofovir (TDF)	Viread
Zidovudine (AZT or ZDV)	Retrovir
ANTIRETROVIRAL AGENTS: NON-NUCLEOSIDE REVERSE TRANSCRIPTASE INHIBITORS (NNRTIS)	
Delavirdine mesylate (DLV)	Rescriptor
Doravirine	Pifeltro™
Efavirenz (EFV)	Sustiva
Etravirine (ETV)	Intelence
Nevirapine (NVP)	Viramune
Rilpivirine (RPV)	Edurant
ANTIRETROVIRAL AGENTS: COMBINED NRTIS AND NNRTIS	
Bictegravir/Emtricitabine/Tenofovir alafenamide fumarate (BIC/TC/TAF)	Biktarvy®
Efavirenz/Emtricitabine/Tenofovir (EFV/FTC/TDF)*	Atripla ATR
Elvitegravir/Cobicistat/Emtricitabine/Tenofovir alafenamide	Genvoya®
Emtricitabine/Tenofovir alafenamide	Descovy®
Emtricitabine/Tenofovir/E;votegravir/Cobicistat	Stribild®
Emtricitabine/Rilpivirine/Tenofovir alafenamide	Odefsey®
Emtricitabine/Rilpivirine/Tenofovir (FTC/RPV/TDF)	Complera
ibalizumab-uiyk (injection)	Trogarzo™
Dolutegravir/abacavir sulfate/lamivudine (DRV/ABC/3TC	Triumeq®
Doravirine/Lamivudine/Tenofovir Disoproxil Fumarate	Delstrigo™
Dolutegravir/Rilpivirine (DTG/RPV)	Juluca®
Darunavir/Cobicistat	Prezcobix®
darunavir/cobicistat/emtricitabine/tenofovir alafenamide	Symtuza™
Atazanavir/Cobicistat	Evotaz®
ANTIRETROVIRALS: INTEGRASE INHIBITORS	
Dolutegravir (DRV)	Tivicay
Elvitegravir (EVG)	Vitekta
Raltegravir (RAL)	Isentress
ANTIRETROVIRALS: PROTEASE INHIBITORS (PIS)	
Atazanavir Sulphate (ATV)	Reyataz
Darunavir (DRV)	Prezista PRZ
Darunavir/Cobicistat	Prezcobix
Fosamprenavir FPV	Lexiva
Indinavir	Crixivan
Lopinavir/Ritonavir (LPV/RTV or LPV/r)	Kaletra

**SAN ANTONIO TGA RYAN WHITE PART A
